TABLE OF CONTENTS

List of Contributors	1
Introduction	4
<i>Mark Stranger</i>	

Part One ***The Industry***

Building the bio-economy: state steering and deliberation in biotechnology in Asia and Australia	10
<i>Hans Lofgren</i>	
Biotechnology clusters and networks in Australia: patterns of national and international inter-organisational collaboration	24
<i>Michael Gilding</i>	
Disclosure, Share Prices, and Capricious Behaviour	37
<i>Michael Vitale and Marita Walmsley</i>	
Biomedical Patents: Innovation and Access, Trust and Mistrust	47
<i>Dianne Nicol</i>	
The AUSFTA and 'Fast Track' Regulatory Approval of Medicines: Problems and Opportunities for Australian Academic Innovations in Nanotherapeutics	64
<i>Thomas Faunce and Steven Speldewinde</i>	

Part Two ***The Public***

The Popular Media, Public Perceptions and Biotechnology Policy	88
<i>Timothy Caulfield and Tania Bubela</i>	
Consuming Science: Professional and Popular Media Representations of the Relationship Between Molecular Genetics and Mental Illness	102
<i>Julie Henderson</i>	

What does the Public Really Think and Who do they Really Trust?	115
<i>Craig Cormick</i>	
Stem Cell Research: What do the Australian Public Really Think and Why?	130
<i>Christine Critchley</i>	
Consumer Experiences and Predictive Genetic Testing	149
<i>Sandra Taylor, Susan Treloar, Kristine Barlow-Stewart, Margaret Otlowski and Mark Stranger</i>	
Marketing and Consumption of Paternity Tests	167
<i>Lyn Turney</i>	
Issues with Tissues: Perspectives of Tissue Bank Donors and the Public Towards Biobanks and Related Genetic Research	184
<i>Jennifer Fleming</i>	
Part Three	
<i>Policy and Guidelines</i>	
Exploration of Key Themes in the Policy Debate on Genetic Research and Genetic Databanks	204
<i>Margaret Otlowski</i>	
Strong Public Engagement and Public Policy: Critical Underpinnings for Human Genetic Research	219
<i>David Weisbrot</i>	
International Co-operation Between Biobanks: The Case for Harmonisation of Guidelines and Governance	237
<i>Donald Chalmers</i>	
The Role of the National Health & Medical Research Council's Human Genetics Advisory Committee	247
<i>Ronald J A Trent</i>	
Cloning, Stem Cell Research and the Lockhart Committee's Recommendations	253
<i>Loane Skene</i>	

LIST OF CONTRIBUTORS

Kristine Barlow-Stewart

Genetic Counsellor (FHGSA) and Foundation Director of NSW Health's Centre for Genetics Education; Member, NHMRC Human Genetics Advisory Committee; long-standing work in addressing the information and support needs of the community, education and training needs of professionals; foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Tania Bubela

Assistant Professor, Department of Marketing, Business Economics and Law, University of Alberta; Research Associate, Health Law Institute, University of Alberta; Research Associate, Centre for Intellectual Property Policy, McGill University; Member of the Intellectual Property Modeling Group.

Timothy Caulfield

Research Director of the Health Law Institute at the University of Alberta; Canada Research Chair in Health Law; Policy and Professor in the Faculty of Law and the School of Public Health; Senior Health Scholar with the Alberta Heritage Foundation for Medical Research; Principal Investigator for Genome Canada project on the regulation of genomic technologies, the theme leader in the Stem Cell Network and the Advanced Foods and Materials Network (National Centres of Excellence); member of the Royal Society of Canada and the Canadian Academy of Health Sciences.

Donald Chalmers

Professor of Law; Dean, Faculty of Law (UTas); Head of School, School of Law; Director, Centre for Law and Genetics; Member, NHMRC Human Genetics Advisory Committee; Convenor and foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Craig Cormick

Manager of Public Awareness, Biotechnology Australia; previously worked as a science journalist and has taught public relations and writing at university; widely published on drivers of public attitudes towards biotechnology; a regular commentator in the media and at industry and research conferences, both in Australia and overseas, on causes of public concern towards applications of biotechnology.

Christine Critchley

Senior Lecturer in Psychology (Swinburne University); researcher and Deputy Director, Australian Centre for Emerging Technologies and Society (ACETS).

Thomas Faunce

Associate Professor in both the Medical School and the College of Law (ANU); foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network; Project Director, ARC grants investigating (1) the impact of AUSFTA on Medicines Policy in Australia and (2) safety and cost-effectiveness regulation of nanomedicine in Australia. He is currently developing the Australian component of the Global Database on Health Law and Bioethics for UNESCO.

Jennifer Fleming

IMB Research Scholar (PhD Candidate) at Institute for Molecular Biosciences (UQ); previous work in Clinical Research Management, and Research Ethics and

Medical Education; Board member of ANZIHLE; and foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Michael Gilding

Professor of Sociology; Deputy Dean (Research) Faculty of Life and Social Sciences (Swinburne); Director, Australian Centre for Emerging Technologies and Society; and President, The Australian Sociological Association.

Julie Henderson

Research Fellow at the School of Nursing and Midwifery (Flinders University); current convenor the Australian Sociological Association's (TASA) Sociology of Mental Health Thematic group.

Hans Lofgren

Senior Lecturer in Politics and Public Policy, and Director, Master of Politics and Policy program, (Deakin University); published widely on pharmaceutical and biotechnology issues; currently researching biopharma developments in India.

Dianne Nicol

Associate Professor, Faculty of Law (UTas); Deputy Director, Centre for Law and Genetics; Member of the NHMRC Human Genetics Advisory Committee working group on industry and commercialisation; and foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Margaret Otlowski

Professor of Law; Deputy Director, Centre for Law and Genetics; Member of the NHMRC Human Genetics Advisory Committee working group on industry and commercialisation; Member of the Federal Privacy Commissioner's Health Leaders Forum; and foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Loane Skene

Professor of Law (UMelb); Pro Vice-Chancellor and President, Academic Board (UMelb); Deputy Director Centre for Law and Genetics; Past Deputy Chair of the Lockhart Committee on Human Cloning and Embryonic Stem Cell Research; and foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Steven Speldewinde

Research Associate, Globalisation and Health Project, Australian National University.

Mark Stranger

Research Fellow and Manager, Centre for Law and Genetics (UTas and UMelb); Project Manager for ARC Discovery Grant, Facilitation and regulation of research and development involving human genetic databanks; foundation member and administrator of the Biotechnology, Ethics, Law & Society (BELS) Network.

Sandra Taylor

Associate Professor of Social Work, Social Work and Human Services Central Queensland University; long-standing social work practitioner with individuals and families affected by Huntington disease; interest in psychosocial, ethical and legal issues associated with genetic technologies; Chief Investigator in the Australian Genetic Discrimination Project and an ARC project investigating gender and gender risk; foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Susan Treloar

Research Fellow on the Genetic Discrimination Project; worked in genetic epidemiology at Queensland Institute of Medical Research on twin research and genetic linkage and association studies, and Deputy Director of the Australian Twin Registry; currently Associate Professor and Head of the Deployment Health Surveillance Program at the Centre for Military and Veterans' Health, University of Queensland; foundation member of the Biotechnology, Ethics, Law & Society (BELS) Network.

Ronald Trent

Chairman of the NHMRC Human Genetics Advisory Committee; Professor of Molecular Genetics (U Syd); Director of the Department of Molecular & Clinical Genetics at the Royal Prince Alfred Hospital in Sydney and Executive Director of SUPAMAC – the University's high throughput DNA analysis service. Member of the Board of Directors of the Garvan Institute of Medical Research (1998-2009); Member of the NHMRC's Research Committee (1997-2009) as well as Chairman of the NHMRC's Gene and related Therapy Research Advisory Panel (1994-2006). Foundation Chief Examiner in Genetics for the Royal College of Pathologists of Australasia (1996-2002).

Lyn Turney

Senior Lecturer, Sociology (Swinburne), researcher and foundation member of the Australian Centre for Emerging Technologies and Society.

Michael Vitale

Professor at Monash University and Director, Commercialisation, of the Monash Asia-Pacific Centre for Science and Wealth Creation. Teaching, research, and consulting focused on commercialisation of research, particularly in biotechnology.

Marita Walmsley

Founder and Research Director Interface Innovation P/L. Interface Innovation consults to private and public sector organisations on commercial strategy, innovation capture and business development. Fields of particular interest: effective biomedical research and research accountability.

David Weisbrot

President, Australian Law Reform Commission (ALRC) since June 1999; Emeritus Professor of Law; Chaired the ALRC's inquiries into the protection of human genetic information (*Essentially Yours*, ALRC 96, 2003) and gene patenting and human health (*Genes and Ingenuity*, ALRC 99, 2004); Member, NHMRC Human Genetics Advisory Committee; Member of the Human Genome Organization (HUGO); and in recent years has lectured and published extensively on the ethical, legal and social implications of genetic science and technology.
